Future MFF & FP10: Boosting RD&I Investments

Europe needs to ensure a better continuum of its R&D investments

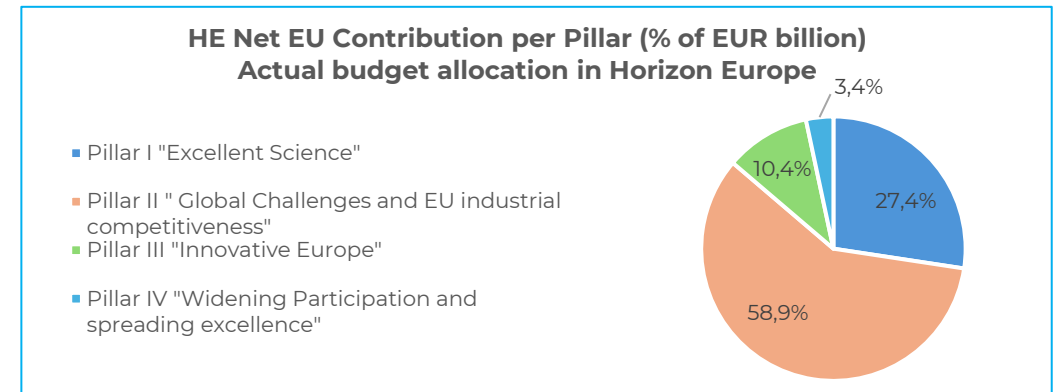

This chart presents the spending intensities (in percentage of GDP) allocated by a sample of countries to the three types of RD&I activities identified by the OECD: basic research, applied research, and experimental development.

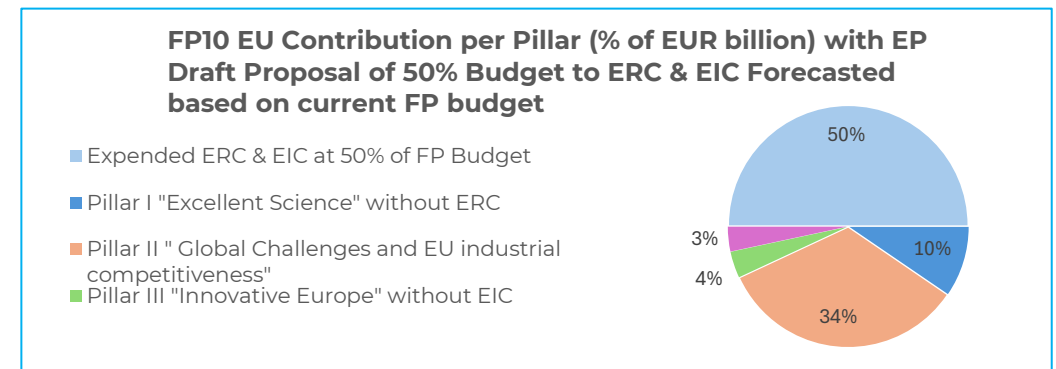

➤ More Information: [EARTO Position Paper on the Next EU Multiannual Financial Framework: How to Focus EU RD&I Investments to Boost our Technology Leadership, Productivity & Industrial Competitiveness?](#)

European Parliament 2nd Draft report on FP10 (Asking for €200B)

Actual budget allocation per Pillar in Horizon Europe

Forecasted budget allocation per Pillar in FP10 (based on current FP budget)
